

**Dear colleagues and friends,**

It is my great honour and pleasure to invite you, on behalf of the Congress Organizing Committee, to participate at the 6th Croatian Congress of Laboratory Diagnostics with international participation, to be held in Primosten, Croatia, September 24-27, 2015.

Our profession plays a vital role in the diagnosis, care and treatment of patients, in monitoring, development of new tests and in surveillance of diseases of public health importance. The theme for the 6th Congress: "The Role of BLS in Global Biosecurity and Biosafety" is therefore highly relevant and important.

Congress is multidisciplinary, designed as a bridge between scientists and experts of different specialities (BLSs, Medical Laboratory Technicians and Technologists, Medical Scientists, Clinical Pathologists, Cytologists, Microbiologists, Molecular Biologists, Medical Doctors, Nurses, Researchers, as well as Laboratory Suppliers from all fields of Laboratory Medicine and Technology).

The Congress will be organized in plenary sessions, symposia, oral presentations and poster sections, workshops and coordinated discussions, which will be great opportunity for all participants to exchange information related to scientific research, new ideas and technologies and their implementation in science or everyday diagnostic/clinical practice. We hope that the selected topics and active participation of renowned national and international experts will be sufficient invitation for all participants.

It is our wish to use part of the time for pleasant contacts during the Congress and for sightseeing.

Primosten, a town knitted in "stone lace", a unique monument to centuries of work field labourers' callous hands have done, known for its indigenous stone houses, churches, the narrow streets of the Mediterranean style, is situated on a small island which is connected to mainland with a dike. Primosten became a symbol of international meetings and friendship, and a town where everyone is welcome.

Finally, allow me to invite you to our beautiful country, to join us on Congress, to actively participate, meet other colleagues, share your knowledge and experience and create social and professional networks and friendship.

Looking forward to seeing you in Primosten, Croatia!

Mirjana Stupnisek  
Assistant professor, PhD, MLT
